## Education

### Jaypee University of Engineering and Technology

Guna, India

Bachelor of Technology in Computer Science and Engineering (AI/ML), GPA: 8.57/10

July 2024 – June 2028

- Relevant Coursework: Data Structures and Algorithms, Advanced Programming, Database Management Systems, Computer Networks, Artificial Intelligence

## Technical Skills

**Programming Languages:** Java, Python, C++, C, SQL, JavaScript, TypeScript

**Software Engineering:** Data Structures and Algorithms, Object-Oriented Programming, API Development, REST APIs, FastAPI, Node.js, React, Next.js

**Databases:** PostgreSQL, MySQL, MongoDB, SQLite, Redis

**Cloud and Tools:** AWS, Docker, Linux, Git, GitHub

**Data and Machine Learning:** Pandas, NumPy, Scikit-learn, Power BI

## Experience

### Indian Oil Corporation Limited (IOCL)

Mathura, India

AI/ML Intern

June 2026 – July 2026

- Built a real-time full-stack ML application to predict Heavy Kerosene Flash Points from 41 live DCS sensor inputs, using an L1-regularized regression pipeline and an integrated, secure AI chatbot. (Python, FastAPI, React, SQLite, Docker)
- Designed REST APIs and added input validation and error handling to keep the system stable and reliable while processing live sensor data.

### Microsoft Elevate AICTE Program

Remote

Power BI Intern

February 2026 – March 2026

- Built a Power BI dashboard analyzing 365 global cybersecurity incidents, visualizing breach trends, attack vectors, and incident patterns to turn raw data into clear, actionable insights.

## Projects

### JUET Nexus

2026

- Built a proxy dashboard for the university's ERP system to speed up data access and give students a smoother experience. (TypeScript, Next.js, Fastify, Redis)

### Loom2

2026

- Built an AI-powered digital wardrobe app that classifies clothing by type and color and recommends weather-aware outfits through an integrated Stylist AI. (React, Node.js, AI APIs)

### GraphQL vs. REST Benchmark

2026

- Wrote a technical research paper benchmarking GraphQL and REST on API performance, latency, and developer experience. (GraphQL, REST)

### File Converter

2026

- Built a client-side PDF and image toolkit – split, merge, rotate, watermark, encrypt, and resize – that processes everything in-browser with no server uploads. (Next.js, TypeScript, Tailwind CSS)

### AI-Parametric CAD Workbench

2026

- Built a full-stack tool that turns natural-language part descriptions into interactive 3D CAD models, with live parameter sliders, conversational refinement, and STL/STEP export. (FastAPI, React, Three.js, Gemini API, Docker)

## Certifications and Achievements

**Winner, Elite Hack 1.0** – Secured 1st place among 100+ teams with an AI-based solution.

**Finalist, i.mobilothon 5.0** – Recognized for building scalable mobile-first architectures.

**Oracle Certified AI Foundations Associate** – 2025.

**Microsoft Elevate AICTE Alumnus** – Completed training in cloud computing and AI technologies.

## Leadership

### IETE Student's Forum (ISF)

Guna, India

Joint Secretary

June 2024 – Present

- Coordinate technical events and student activities as part of the student leadership team.

### Developer Student Clubs – VR/AR/MR and Rospinot/ISF

Guna, India

Community Lead

June 2024 – Present

- Led technical initiatives and organized the CodeSrijan Hackathon.
